

A BIBLIOGRAPHY OF WRITINGS ABOUT HISTORIC BRASS INSTRUMENTS, 1990-91

Compiled by David Lasocki

This annual series of bibliographies lists writings about brass instruments, their makers, making, original performance situations, performers, performance practices, repertory and depiction in works of art through the nineteenth century. Interviews with modern performers of historic brass instruments are also included, but not reports on conferences and workshops unless they contain significant historical information. The present bibliography covers those items for 1991 that had reached me by May 1992 as well as those items from 1990 that reached me after August 1991 (and a few leftovers from 1988-89). I would be grateful if readers could notify me of any omissions or corrections.

The items listed comprise books, theses and dissertations, and periodical articles in Western European languages. Unpublished books and articles as well as works-in-progress have been excluded. For the sake of completeness, the articles that have appeared in *Historic Brass Society Journal* are included, even though they should already be familiar to readers. The bibliographic information about theses and dissertations was taken from the database *Dissertation Abstracts International* on Dialog.

For the most part the bibliography is unannotated, although here and there I have added brief descriptive annotations to clarify the contents, scope, or bibliographic linkages of an item. My English translations of all foreign titles are given in square brackets after the original titles. Advice about where to obtain the items may be found at the end of the bibliography.

Where to Obtain Sources

All the books, many of the theses and dissertations, and most of the articles listed in this bibliography may be obtained on interlibrary loan from your university or college library (if you are affiliated with such an institution) or your local public library. Show the librarian this bibliography as verification of the item; the OCLC number (where given) will aid in obtaining the books, theses, and dissertations.

Most of the dissertations can be purchased from University Microfilms International, 300 N. Zeeb Road, Ann Arbor, MI 48106 (phone [800] 521-3042); customers with academic addresses receive a considerable discount. The theses and the remainder of the dissertations can generally be purchased from the university where they were submitted.

If you cannot obtain a particular article on interlibrary loan, write to the periodical in question to purchase a back issue or offprint. The addresses of these periodicals are
